Privacy Checkup for WhatsApp

What we are checking?	Features	How to check? (for stock Android)	Why we are checking this?
Who can see when you were Last Seen	Last Seen	Settings (bottom right) → Privacy → Last Seen	WhatsApp users can choose who they share their Last Seen with, whether it be everyone, only their contacts, or nobody.
Who can see your Profile Photo	Profile Photo	Settings (bottom right) → Privacy → Profile Photo	WhatsApp users can choose who can see their Profile Photo, whether it be everyone, only their contacts, or nobody.
Who can see your About	About	Settings (bottom right) → Privacy → About	WhatsApp users can choose who can see their About, whether it be everyone, only their contacts, or nobody.
Who can see your Status	Status	Settings (bottom right) → Privacy → Status	WhatsApp users can choose who can see their Status, whether it be only their contacts, their contacts except certain ones, or with a select few contacts.
WhatsApp Web	Everything (chats, media, etc.)	Three-dot → WhatsApp Web → Check for the "Logged in devices"	WhatsApp Web allows syncing complete WhatsApp session with another device (held by the abuser). Needs: One-time **physical access**
WhatsApp backup	Everything (Chat, media (if synced))	Settings → Chats → Chat backup → "Google Drive settings"	WhatsApp allows backing up chats and media content with GDrive. An abuser with access to victim's GDrive can read the victim's messages using the backup. Need: GDrive account creds + victim's phone number
